

# CONNECTED VEHICLE SOLUTIONS

---

# Stay Connected, Stay Intelligent Always!

Zoomcar's Connected, Diversified & Intelligent Telematics Solutions - Comprehensive mobility services for varied partner needs

## FOR WHOM ?

Fleet Operators & Managers, OEMs, Dealers, Owners of all Vehicle types, Vehicle-Sharing platforms, Logistics and Delivery Companies

## VEHICLE AGNOSTIC

Fleet Management capabilities for all form factors - 2W,3W, Cars, Trucks, Buses, Electric Vehicles, Commercial Vehicles

## LEVERAGING POWER OF AI & ML

Millions of data points collated over 1 bn+ kms of driving experience.

# Product Portfolio & Key Features

## VEHICLE TRACKING, GEOFENCING & IMMOBILIZATION

Enhance visibility & gain control over assets remotely via live GPS tracking. Monitor vehicle movements within defined boundaries. Immobilize remotely and ensure better control over assets

## VEHICLE HEALTH

Access to real time vehicle health parameters, diagnostic checks and insights to reduce fleet downtime and maintenance costs up to 30%

## DRIVER SCORING

Zoomcar's proprietary & unique driver score ratings ensures optimized driving and fuel cost savings up to 30%

## OPERATIONS AUTOMATION

Schedule and automate routine operations and maintenance tasks and increase uptime by over 25%

# Product Portfolio & Key Features

## FLEET MANAGEMENT DASHBOARD

One-stop shop for fleet tracking & management with automated alerts and configurable reports. Control room with 360-degree view of fleet.

## ADVANCED DRIVER ASSISTANCE SYSTEMS (ADAS)

Accident Detection, A&V Recording and alerts powered by AI and ML to improve driving behaviour and avert serious accidents

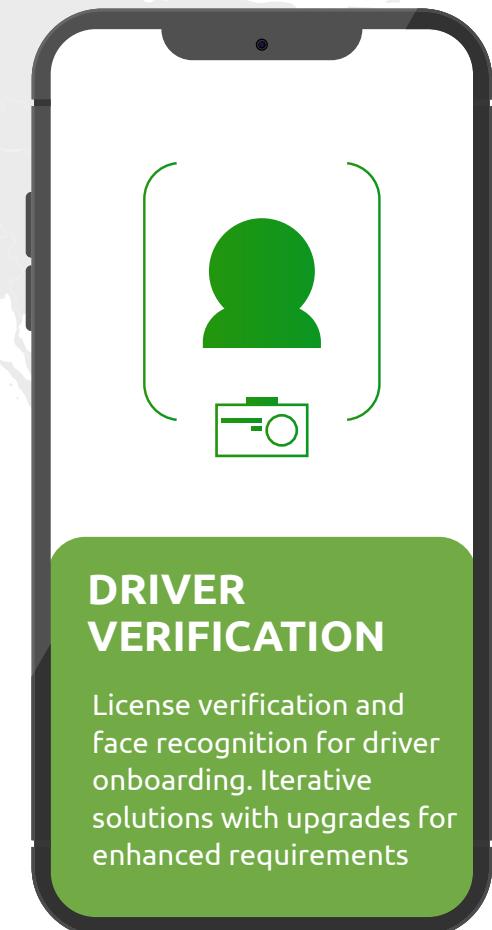

## KEYLESS ENTRY

Access to an array of KLE based solutions for fleet sharing & advanced operations capabilities

## FUEL LEVEL MONITORING

Realtime fuel level monitoring, refills, theft alerts and mileage analysis to reduce fuel pilferage and losses

## DRIVER VERIFICATION

License verification and face recognition for driver onboarding. Iterative solutions with upgrades for enhanced requirements

# Why Partner with Us

## Multi-Partner Ecosystem

Multi-device partner compatibility & scalability across the globe with Plug and Play Solutions

## Proven Next-Gen Technology

Best in class stable and scalable technology solutions for yield management and varied partner needs

## Futuristic Products

Always in sync with the evolving business landscape

## Advanced Data Science & Analytical Capabilities

Self-learning algorithms powered by Artificial Intelligence & Machine Learning to predict driver behaviour

## Works Across all Vehicle Types

Works seamlessly across all vehicle types - 2W, 3W, Cars, Trucks, Buses, EVs, Commercial Vehicles

## Tireless Commitment to Customer Satisfaction

24X7 dedicated account level & customer support

## Advanced KLE Capabilities

Served 20,000+ happy subscribers in the first ever shared subscription program

## India's largest B2C Personal Mobility Platform

Fleet management experience of managing 20,000+ assets
